THERE IS SO MUCH TO CONSIDER.

WE CAN TALK FOR AS LONG AS YOU WISH.

WE CAN STOP TALKING ABOUT THIS SUBJECT WHENEVER YOU WISH.*

WHAT IS HOSPICE?

The goal of hospice is to make your quality of life better in the final months, weeks and days. Hospice can give you peace of mind to focus on the things that are most important to you. While you are on hospice you continue to receive the highest quality medical care. You will receive emotional, psychological, and spiritual support. Your family will have access to caregiving support and spiritual support.

Hospice emphasizes care, comfort, and support instead of treatments like chemotherapy and radiation for someone who is nearing the end of life's journey. Hospice can do many things like controlling pain, and reducing anxiety during this time. The focus is on living longer, in comfort and dignity.

WHERE IS HOSPICE PROVIDED?

Hospice care is usually provided at your home, or at the home of a family member, or the home of a friend.

HOW DO I PAY FOR HOSPICE?

Most services are covered by Medicare, Medicaid and private insurance but there may be out-of-pocket costs. You cannot be refused by any hospice based on your ability to pay. Hospice is optional. You can be on hospice care for as long as you qualify. You can also cancel at any time for any reason.

*Note: Give as much or as little information as needed by the patient.
